PROFILE

I am an experienced software engineer with the desire to continue developing and teaching full-stack web development. I enjoy solving problems, finding creative solutions, and helping others to progress in their careers.

EXPERIENCE

Quality Assurance Software Developer (Intern), H10 AI, United States, 1/2026 – Present

Developed and maintained software test suites using modern JavaScript testing tools, collaborated with senior developers on code reviews and quality control, and supported structured development workflows through effective communication and project tracking.

Full Stack Developer, HENRYMO TECHNOLOGIES, 10/2025 – Present

Designed and developed responsive, high-performance web applications using React, Next.js, HTML, CSS, and JavaScript, while building reusable frontend components, integrating secure REST APIs, optimizing performance, and collaborating with cross-functional teams to deliver user-friendly and mobile-responsive products.

Web Developer & Data Analyst (Contract), STRENGTHENING FAMILIES FOUNDATION, Remote, 1/2025 – 4/2025

Optimized database queries and managed relational data systems to improve performance, maintained secure client-facing web infrastructure using full-stack technologies, and analyzed system data to generate technical reports for platform improvements.

EDUCATION

B.S. Software Development, Brigham Young University-Idaho

B.S. Marriage and Family Studies, Brigham Young University-Idaho
