PROFESSIONAL SUMMARY

Full-stack software engineer with 6+ years of building production web and mobile software, and co-founder of Zentrix Software Solutions, a registered Nigerian engineering studio. Has shipped live marketplaces, multi-tenant school SaaS, fintech, and e-commerce platforms used by real customers, owning the full lifecycle from discovery and architecture to testing, deployment, and support. Works across React, Next.js, Node.js/NestJS, TypeScript, PostgreSQL, payments, and CI/CD. Holds a B.S. in Software Development from Brigham Young University–Idaho.

EDUCATION

Bachelor of Science, Software Development — Conferred Aug 2026

Brigham Young University–Idaho, Rexburg, Idaho, USA — GPA 3.27

Coursework: Software Engineering, Data Structures & Algorithms, Full-Stack Development, Web Services, Database Design, Software Testing, Mobile Development.

Bachelor of Science, Marriage and Family Studies — *Brigham Young University–Idaho* — Apr 2026

Associate of Applied Science, Software Development — *Brigham Young University–Idaho* — Apr 2026

EXPERIENCE

Co-Founder & Software Engineer — Zentrix Software Solutions — Jul 2026 – Present · Nigeria / Remote

- Co-founded a registered software studio (CAMA 2020, RC/BN 9648404) building custom web, mobile, cloud, and AI products for clients in Africa, the EU, and the US.
- Lead engineering on Zentrix Market, a live marketplace and logistics platform for customers, verified sellers, and riders (Next.js PWA, NestJS, PostgreSQL, Prisma, Paystack), with CI that blocks merges on failing tests.

Quality Assurance Software Developer (Intern) — H10 AI — Jan 2026 – Present · United States (Remote)

- Built unit and system tests with modern JavaScript tooling to harden release stability; reviewed pull requests with senior engineers.

Founder & Full-Stack Developer — HenryMo Technologies — Oct 2025 – Present · Remote

- Designed and shipped responsive React/Next.js applications with reusable components, secure REST API integrations, and tuned performance.
- Delivered multiple client projects end to end, from requirements and architecture to deployment and support.

Web Developer & Data Analyst (Contract) — Strengthening Families Foundation — Jan 2025 – Apr 2025 · Remote

- Optimized relational database queries and maintained secure web infrastructure; lifted organic traffic 65% through SEO and analytics-led iteration.

PROJECTS

Zentrix Market · market.zentrixsoftware.org
Marketplace & logistics PWA with sellers, riders, and waybill tracking.

Zentrix Software Solutions · zentrixsoftware.org
Company site: services, pricing, case studies, careers portal.

IbaHub · iba-hub.vercel.app
PWA for gigs, logistics, and retail with virtual accounts.

Henry's eBook Store · e-bookfirst.vercel.app
JSON-driven eBook store with Selar checkout · GitHub

Peni (in development)
WhatsApp-first AI bookkeeping for African SMEs.

Zentrix AI Hub (in development)
AI platform with a Naira wallet and ledger; NestJS.

RiseFlow — School Management SaaS · riseflowschools.com
Multi-tenant school admissions, results, and fees · GitHub

RiseFlow Hub · app.riseflowhub.app
Startup platform with AI idea scoring and investors · GitHub

GPG Gathering Place Global · tanstack-start-app...workers.dev
Community platform with AI moderation; Cloudflare Workers.

mummyj2Treats · mummyj2treats.com
Bakery e-commerce with cart and Stripe payments · GitHub

Marketplace Connect (Android) · GitHub
Native classifieds app; Java, Room, Material 3.

Public Transportation Tracker (Senior Project)
Real-time transit tracking app (capstone team).

SKILLS

Languages: JavaScript, TypeScript, Python, Java, C#, C, C++, PHP, SQL, HTML5, CSS3

Frontend: React, Next.js, TanStack Start, Angular, Tailwind CSS, Bootstrap, PWAs · **Mobile:** Android (Java), Expo

Backend & Data: Node.js, NestJS, Express, Spring Boot, .NET, REST APIs, PostgreSQL, Prisma, MySQL, Supabase, Firebase

Testing & DevOps: Playwright, Postman, E2E/API testing, Docker, GitHub Actions CI/CD, Vercel, Railway, AWS, Azure, Paystack

CERTIFICATIONS

Software Development Certificate, Web Development Certificate (Feb 2026), Web & Computer Programming Certificate (Oct 2025), Advanced Marriage and Family Certificate, Parent and Family Education Certificate — BYU–Idaho · PathwayConnect Certificate — BYU–Pathway Worldwide (2020) · Generative AI, Microsoft Copilot, and Introduction to AI — LinkedIn Learning (2025)
